

Dear Sirs, Please do not give the opportunity for an LPFM station to displace my favorite station, KLOVE. It is the only station we listen to. It is family friendly. I don't have to worry what my children might hear if they listen. I want them to hear. There is less and less available for families today and taking this away

just gives one more way to negatively impact our families. If I understand this correctly, if KLOVE is getting the funding it needs to stay on the air, why should they have to compete for air space by a LPFM station? Please continue to fight for families who want clean entertainment. Please continue to place hefty fines on those who violate the decency laws and please don't allow other LPFM stations to interfere with my KLOVE reception.

Thanks so much for listening to my opinion.

Sincerely,

John and Lisa Curry
